Venue

The Adrema Hotel and the Production Technology Centre (PTZ), Berlin are located in the centre of Berlin, near the Spree, Berlin's main river.

INVITATION

INTERNATIONAL CONFERENCE ON DRY ICE BLASTING

2nd International Conference
on Dry Ice Blasting
15th IAK Trockeneisstrahlen

17th/18th November 2011
Adrema Hotel, Berlin

INTRODUCTION

Since 2002, the **Industriearbeitskreis Trockeneisstrahlen** has provided a forum to discuss and present current research, innovative applications, and novel ideas in the field of blasting with solid carbon dioxide. The 15th meeting will be the second one held in English to offer the exchange of ideas to an international audience. We would like to invite you to this meeting with exhibition not only for intensive scientific and technical discussions, but also as a great networking opportunity. The presentations are accompanied by an exhibition. The first day of the conference will end with an evening opportunity for discussing, socialising and networking. The 15th conference will take place at adrema hotel and the Production Technology Centre in Berlin on November 17th and 18th 2011. The Conference on Dry Ice Blasting is organised by the Fraunhofer Institute for Production Systems and Design Technology IPK. For registration, hotel recommendations and further information also for exhibitors please visit our website www.strahlverfahren.de/EN/index.jsp

Registration deadline is the 4th of November.

The conference fee is 300 € and includes a copy of the conference proceedings (bilingual in German and English), refreshments, dinner buffet and lunch.

We look forward to welcome you to the 2nd International Conference on Dry Ice Blasting.

Martin Bilz
Manufacturing Technologies

AGENDA

Thursday, November 17th 2011

- 13:00 Reception
- 13:30 Opening of the Conference
Martin Bilz; Fraunhofer IPK
- 13:45 CO₂-Blasting
State of the Art, Current Research and Prospects
Martin Bilz; Fraunhofer IPK
- 14:30 Break and Exhibition
- 15:30 Pelletizer for the production of iced carbon dioxide pellets with 100 % transformation rate
Attilio Bernasconi, Grazia Mosca; M.E.C. srl
- 16:00 Modified Cleaning Procedure in Shipbuilding
Walter Heck; G. Theodor Freese GmbH & Co. KG
- 16:30 Guided tour through the experimental hall of the production technology centre
- 18:00 Get-Together and Dinner in the production technology centre

AGENDA

Friday, November 18th 2011

- 9:30 Reception
- 10:00 Cleaning with liquid CO₂
Johannes Mankiewicz; Fraunhofer IPK
- 10:30 Deburring of Plastic Parts with CO₂-Blasting
Felix Elbing; CryoSnow GmbH /
Michael Kretzschmar; IWF TU Berlin
- 11:00 Break and Exhibition
- 12:00 Miniaturization of Dry Ice Nozzle for Cleaning of Small Cavities
Simon Motschmann; Fraunhofer IPK
- 12:30 Closing Words, Lunch and Exhibition

Exhibition

Registrations will be accepted until October 17th 2011. For Further information please contact us or visit our website: www.strahlverfahren.de/EN
